PESIPlex is an industry leader in providing Software & Hardware solutions to Condominium and Gated Communities for many years. Years of communication with various levels of staffs from various buildings paved the way for us to create "CondoClicks.com".

CondoClicks is a secure online-software created by PESIPlex to support various Condominium and Gated communities. It is a one stop solution for Property Managers as well as Security officers. It has been designed from ground up with various considerations to overcome the daily issues faced by the property managers as well as the security officers. We have dedicated a lot of resources into creating a graphical user interface (GUI) that is easy to learn and adopt in very minimal time.

Every possible step has been taken to provide a very stable & secure service to our clients. Our cloud of servers with redundant back bone connections to the internet, assures 99.9999% of availability of our services. This is almost the same kind of technology used by major banks and educational institutes.
